Authorisation No. 35/2006 of 01/09/2006

Issues the following

**PRODUCT CERTIFICATE**  
**No. AO212/C5/2017/0553/P**

In accordance with the relevant provisions of Section 5 of Government Regulation No. 163/2002 Coll., laying down technical requirements for selected building products, in the wording of Government Regulation No. 312/2005 Coll., and Government Regulation No. 215/2016 Coll., the Authorised Body hereby confirms that relation to the building product:

Product name : **LUME EXTRA fire door**  
Applicant : **Masonite CZ spol. s r.o.**  
**Hruškové Dvory 82**  
**586 02 Jihlava**  
VAT ID : **CZ26482738**  
Place of manufacture : **Hruškové Dvory 82**  
**586 02 Jihlava**

they have examined the documents submitted by the manufacturer, performed the initial sample product type test, initial inspection of the place of manufacture and assessment of the production management system, determining that

- the certified product complies with the requirements related to the basic requirements of the above quoted Government Regulation stated in the building technical certificate No. STO-2017-0980/P of 06/02/2017 issued by the Authorised Body No. 212 with expiration date 29/02/2020
- the production management system complies with the relevant technical documentation and assures compliance of the marketed products with the requirements of the above mentioned building technical certificate and the technical documentation pursuant to Section 4(3) of the above quoted Government Regulation.

Protocol No. **AO212/PC5/2017/0553/P of 06/02/2017** forms an integral part hereof and includes conclusions drawn on the basis of the performed examinations and tests, the basic description and a picture of the product needed for its identification.

This certificate was first issued on 06/02/2017 and shall remain valid until any substantial change of the requirements specified in the building technical certificate to which the reference has been made, or the production conditions in the place of the product manufacture or the production management system or until amendment or cancellation of this certificate by the authorised body.

The authorised body shall supervise due functioning of the production management system at the manufacturer at least once every 12 months, take samples in the place of the product manufacture, test them and assess whether the product properties comply with the building technical certificate pursuant to the relevant provisions of Section 5(4) of the above quoted Government Regulation. The authorised body shall issue a supervision evaluation report and submit it to the manufacturer.

Person responsible for the correctness  
of this certificate
